### USGS Digital Raster Graphic (DRG) and Digital Contour Data

Digital Data. The Digital Raster Graphic (DRG) is a compilation of scanned USGS quadrangle maps that have been edged-matched and joined into a single MrSID compressed image and georeferenced to PLSS and 2004 ortho data. The 5'-interval elevation contour data is derived from USGS Digital Line Graphic (DLG) maps and is not a substitute for a professional property survey. Data projected to South Dakota State Plane, North Zone, NAD 83 feet.

DRG MrSID Image	8 foot pixel resolution	1:24000	1990s	USGS	MrSID	County	N/A	\$50
5' Elevation Contours	varies	varies	1990s	DLG	Line Feature Class	County	N/A	\$50

### Brown County Addressed Roads

Digital Data. Roads originally collected with GPS then re-aligned to PLSS and orthophotography. Basic attributes include data fields such as street name, alias name or number, surface type, surface width, road classification and maintenance authority. 911 addressing attributes available at additional cost. Road name annotation (created in 2007) available for Aberdeen City streets at additional cost. Road grid annotation available for rural roads. Data projected to South Dakota State Plane, North Zone, NAD 83 feet. Includes one free update with purchase of original dataset - good for 1 year from original date of purchase.

Rural & City Roads - (w/ Basic Attributes Only)	varies	varies	ongoing	Brown County	Shapefile or Geo-database	County	N/A	\$1,000
Rural & City Roads - (w/ Basic and 911 Addressing Attributes)	varies	varies	ongoing	Brown County	Shapefile or Geo-database	County	N/A	\$2,500
Annotation - Grid of Rural Streets & Avenues	varies	varies	ongoing	Brown County	Geo-database Only	County	N/A	\$50
Roads - Annual Update	varies	varies	ongoing	Brown County	Shapefile or Geo-database	For Purchased Data Only	N/A	\$500

**Brown County Tax Parcels w/Attributes**

Digital Data. Tax parcel boundaries created from a variety of methods including but not limited to: digitizing of plats and legal descriptions, rubbersheeting of CAD data and visual alignment with PLSS and orthophotography data. Data does not represent a true survey of the ground. Base dataset includes boundary polygon layer with tax parcel numbers. Additional ownership and address information may be purchased in addition to the base dataset. Available in personal geodatabase format only. Maintenance contract may be purchased for updates (annual - possibly more often) of data and attributes. Tax assessment (valuation) data available only through paid access to WebIMS site. Data projected to South Dakota State Plane, North Zone, NAD 83 feet. \*Disclaimer - Includes one free update with purchase of original digital dataset - good for 1 year from original date of purchase. Annual update not available with purchase of paper or digital plat maps.

Tax Parcels - with parcel ID (Rural & City)	varies	varies	ongoing	Brown County	Shapefile or Geo-database	County approx 25000	N/A	\$2,500

### Brown Infrastructure Features and Public Places

Digital Data. Infrastructure was derived (resorted and reattributed) from a SD Dept of Transportation dataset collected in 1999 using a 3-10m accuracy gps. Point Features are grouped into feature sets of: Environmental, Historical/Recreation/Tourism, General Infrastructure and Transportation. New features and status of existing features (whether existing, occupied, abandoned, etc) not updated since 1999. The Public Places data was derived from tax parcel boundaries and is updated regularly. Data projected to South Dakota State Plane, North Zone, NAD 83 feet.

Infrastructure Features	varies	varies	1999	Brown County & SD DOT	Point Feature Class	County	N/A	\$250
Public Places (Schools, Parks, Playgrounds & Pools)	varies	varies	ongoing	Brown County	Poly Feature Class	County	N/A	\$100

### Brown County Political Boundaries and Administrative Areas

Digital Data. The Political Townships layer contains political boundaries for organized townships and incorporated cities, towns and villages. The Unincorporated Places layer contains assumed boundaries for unincorporated regions of known name (Ferney, Tacoma Park, etc). Legislative Districts and Voting Precinct boundaries are not a substitute for Brown County Auditor's Office records. Zoning data is for Brown County jurisdictional areas only. Zoning designations for incorporated areas are not available. Data projected to South Dakota State Plane, North Zone, NAD 83 feet.

Political Townships	varies	varies	ongoing	Brown County	Poly Feature Class	County	N/A	\$100
Unincorporated Places	varies	varies	ongoing	Brown County	Poly Feature Class	County	N/A	\$50
Aberdeen 3-Mile Development Zone	varies	varies	2006	Brown County	Poly Feature Class	County	N/A	\$25
