

Dear 4-H Families,

Before Final 4-H Project Enrollment is completed on May 31 --- please carefully read the following details about **Awards for project involvement**.

Awards will be given at the 2023 Brown County 4-H Recognition Event. 12 awards will be available for each age division. Award winners will be determined by the 4-H member's efforts and accomplishments during the member's current age division years as described on their project report forms in their 4-H record book. To be considered for a Project Award 4-H members need to:

- Be enrolled in the 4-H project or projects this current 4-H year for any of the 12 project groups the member applies for
- Members may apply for an award in more than one project group
- Complete and turn in their 4-H record book by the September deadline
- Submit the simple application form with their 2022 4-H record book

Award winners will be 1 deserving Beginner, 1 deserving Junior, and 1 deserving Senior member in each of the 12 4-H project groups. Winners will be chosen from the members that apply for the awards.

More details will be shared by the Award Committee later this summer. **At this time please carefully consider the projects members are enrolled in and determine if members want to continue in projects or take new projects to apply for these awards. Then make the necessary changes to the member's project enrollment at <https://sd.4honline.com> by May 31.**
